

Archived mean, kernel and weighting ablations | All assays

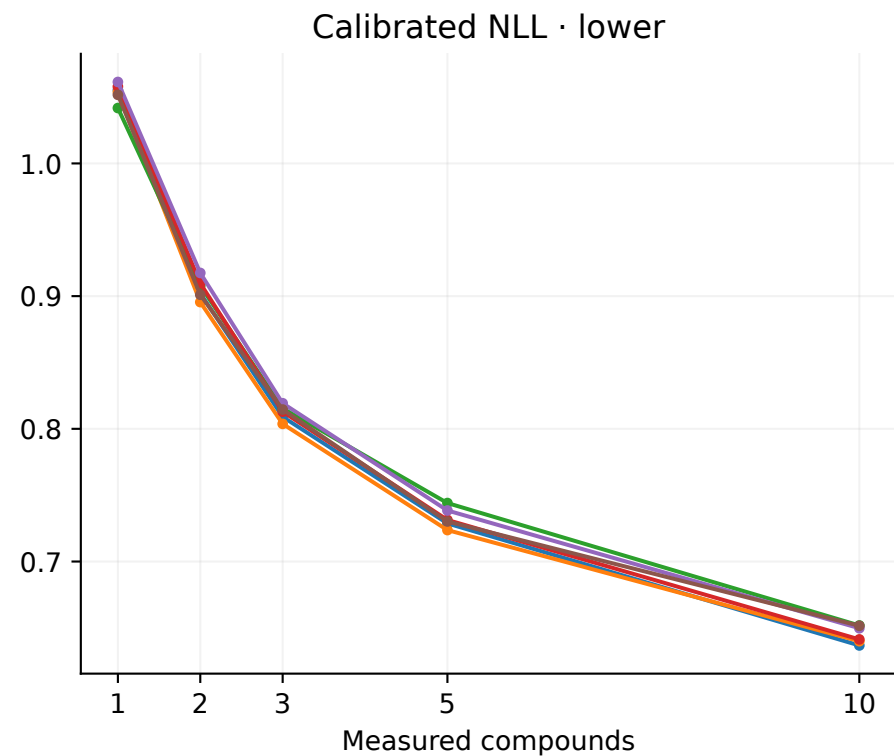

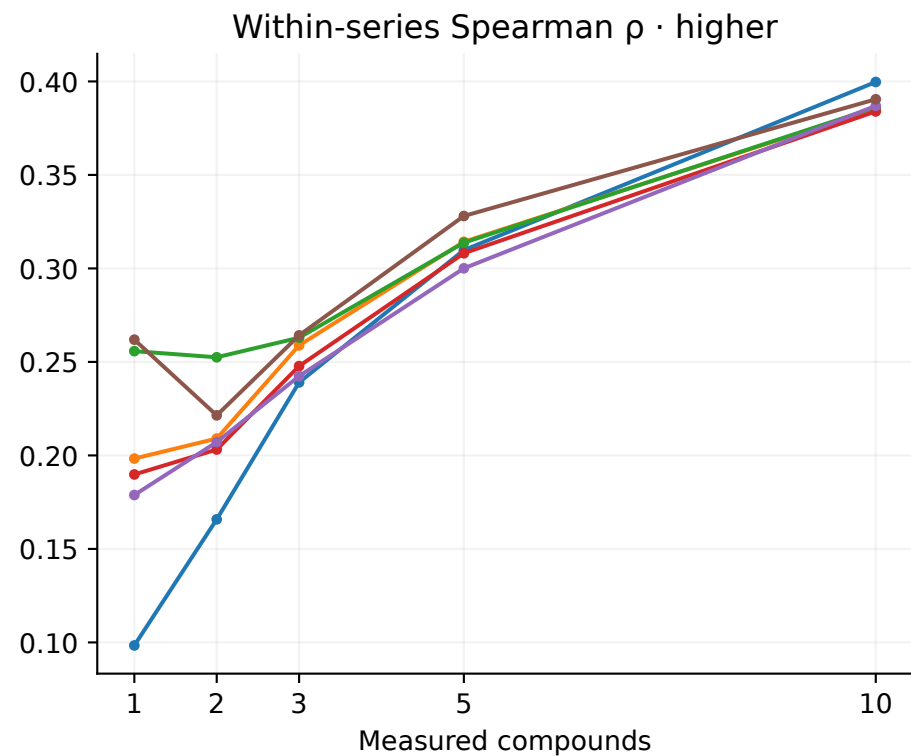

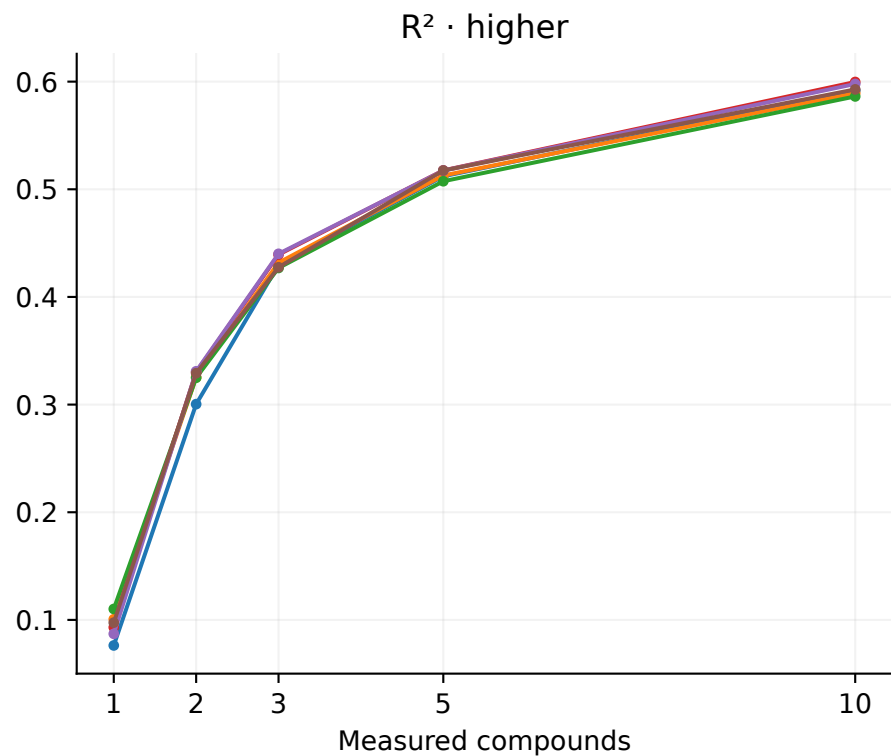

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | Cellular clearance

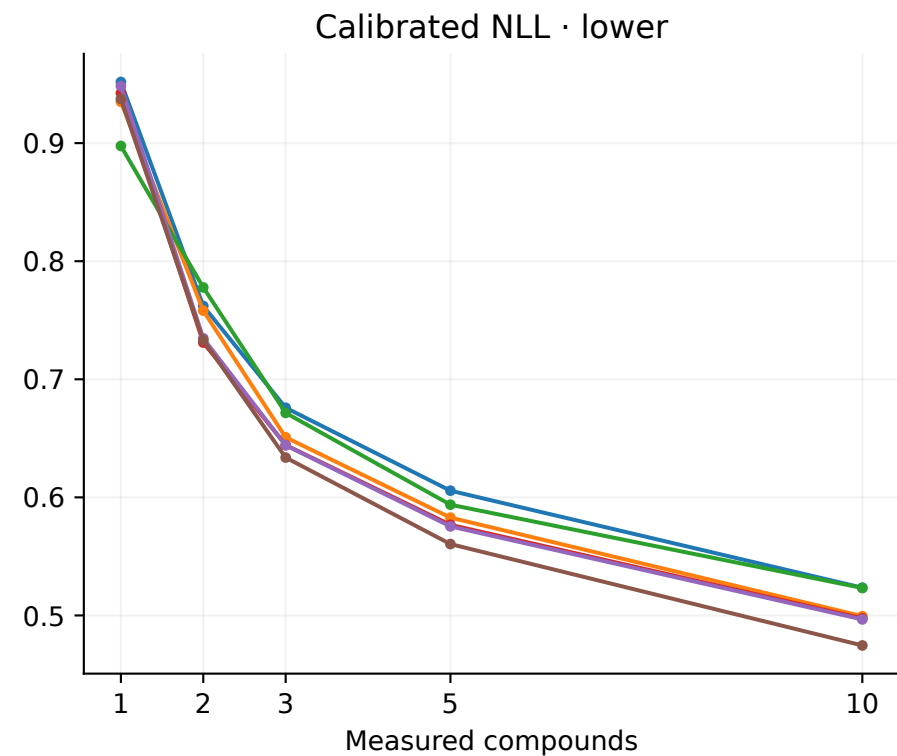

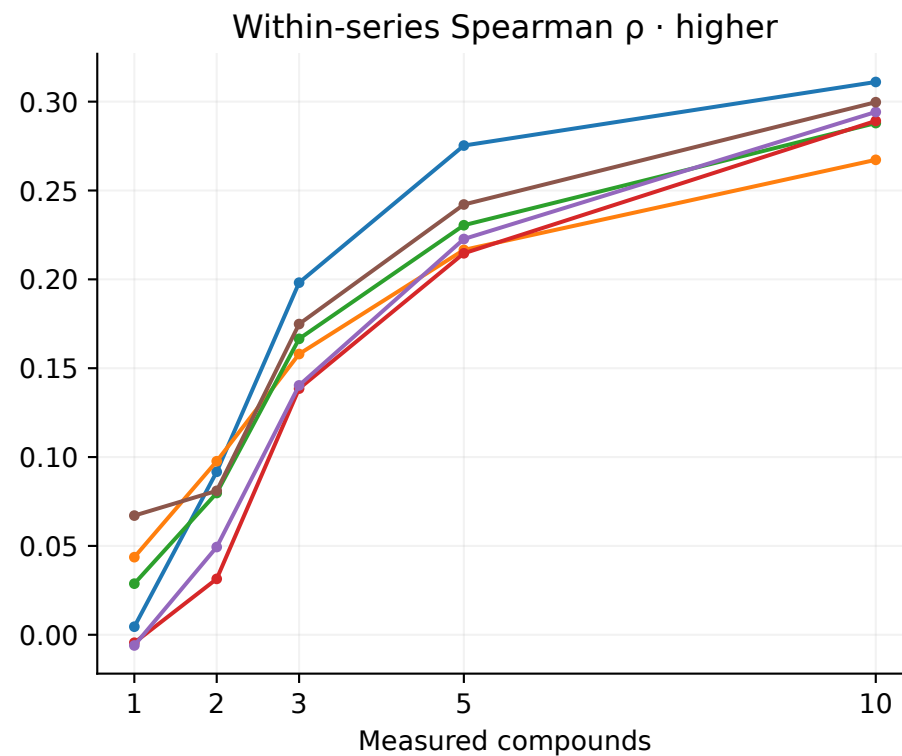

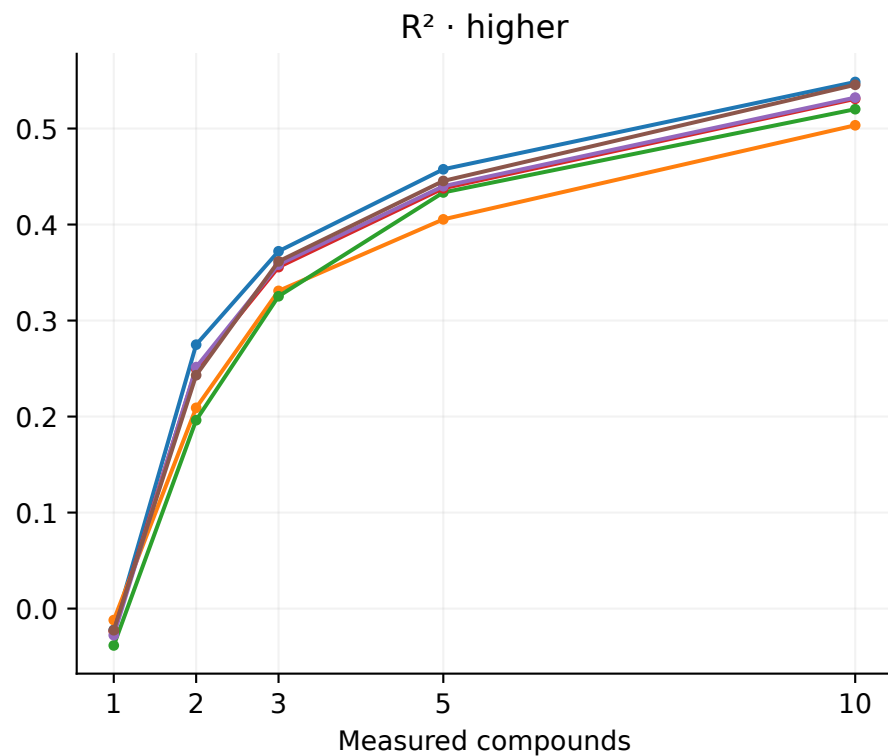

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | Efflux ratio

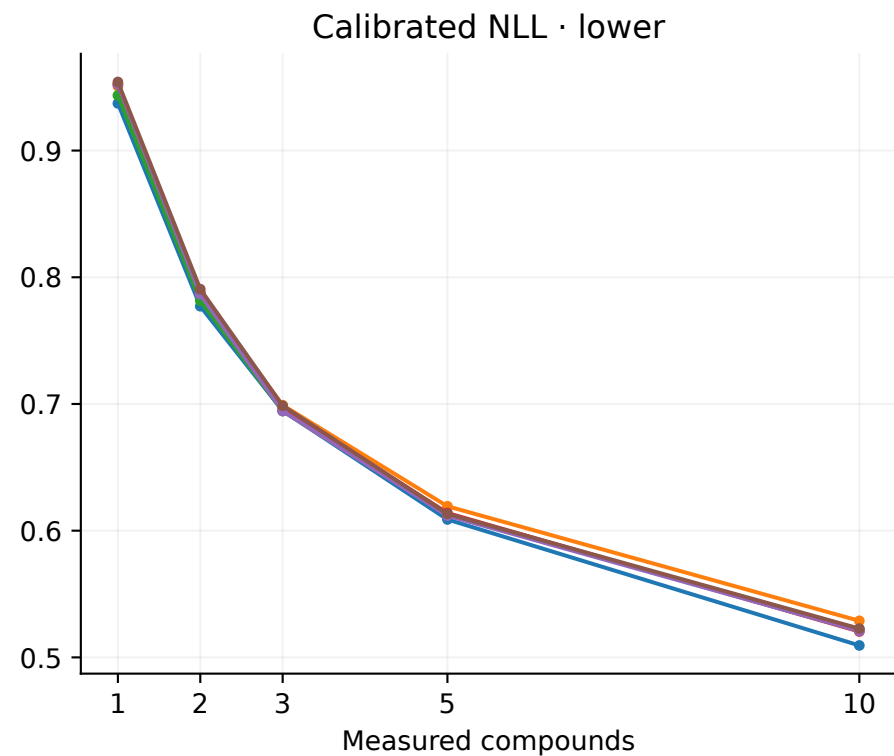

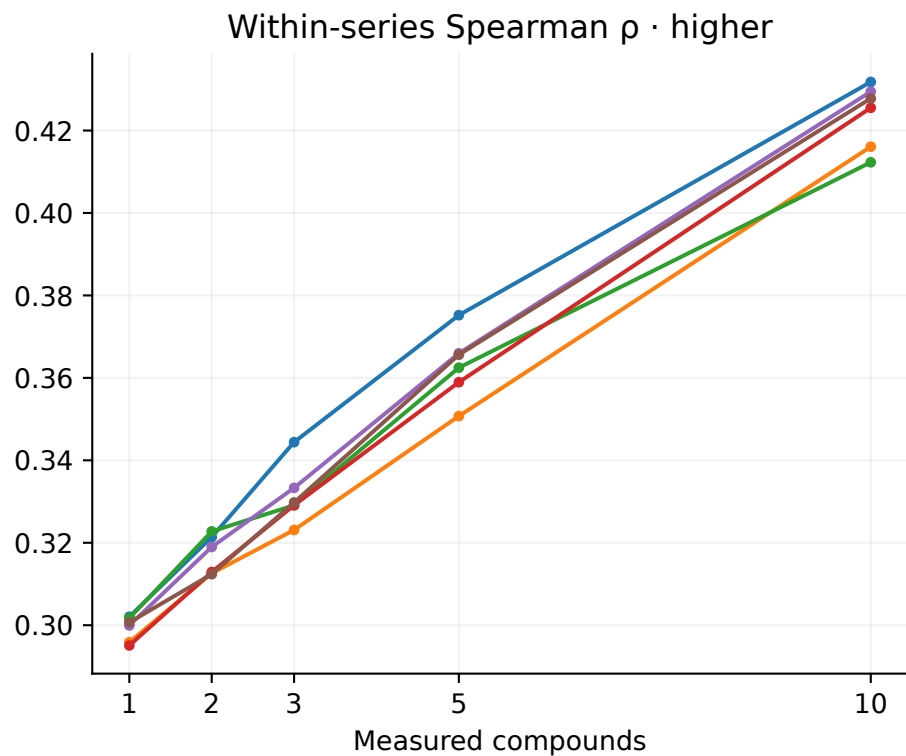

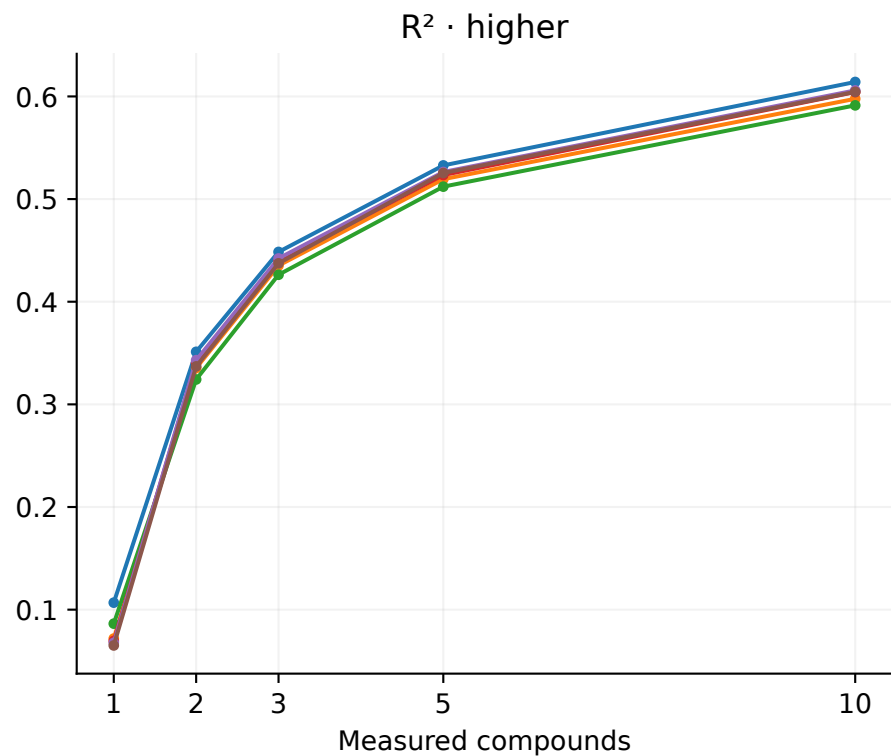

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | In vivo clearance

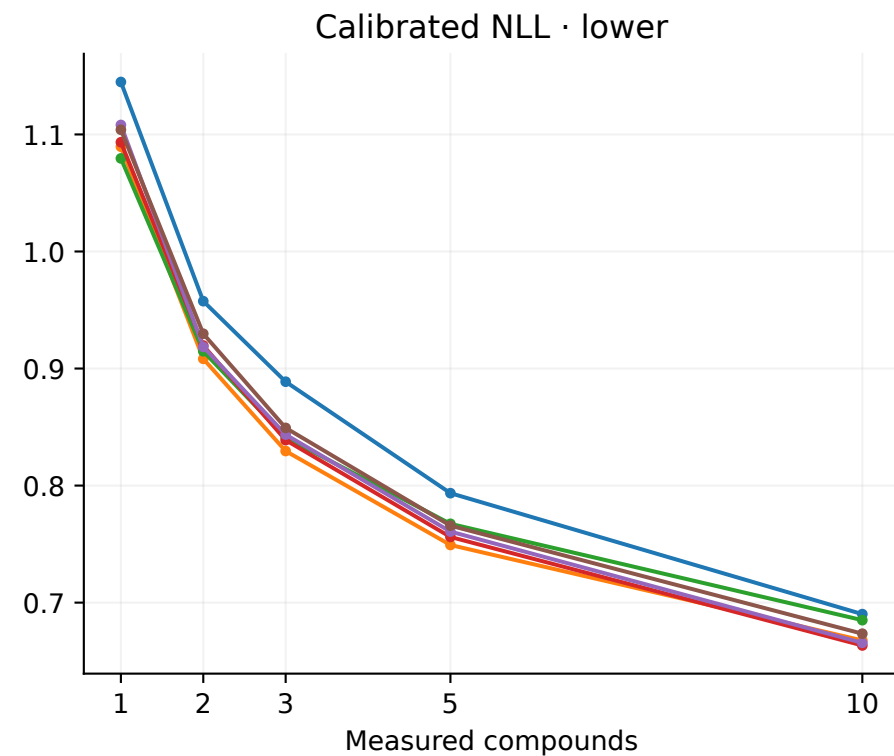

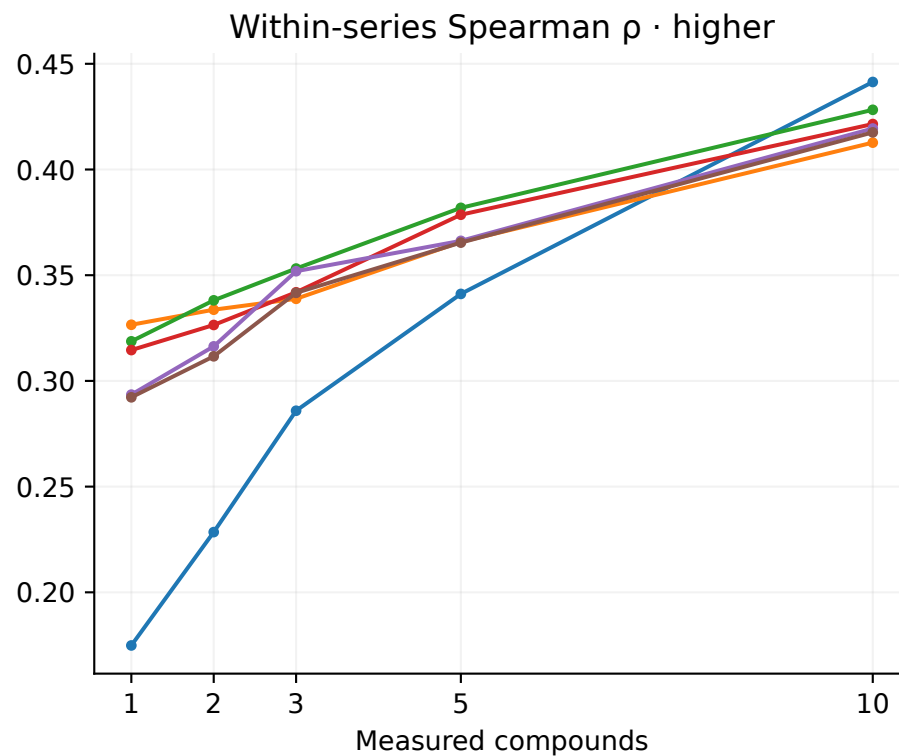

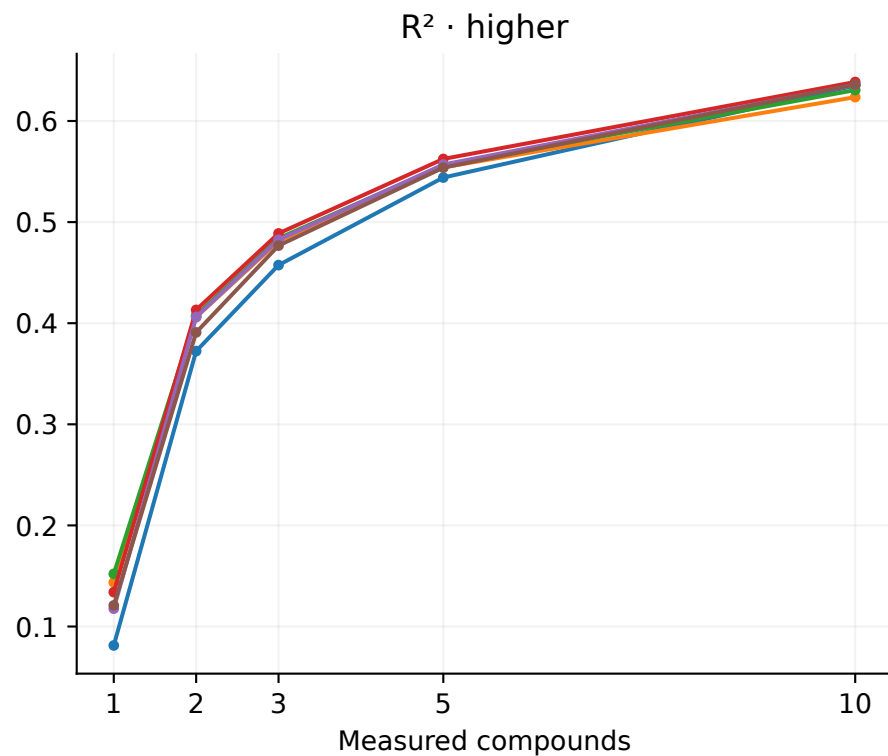

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | Microsomal clearance

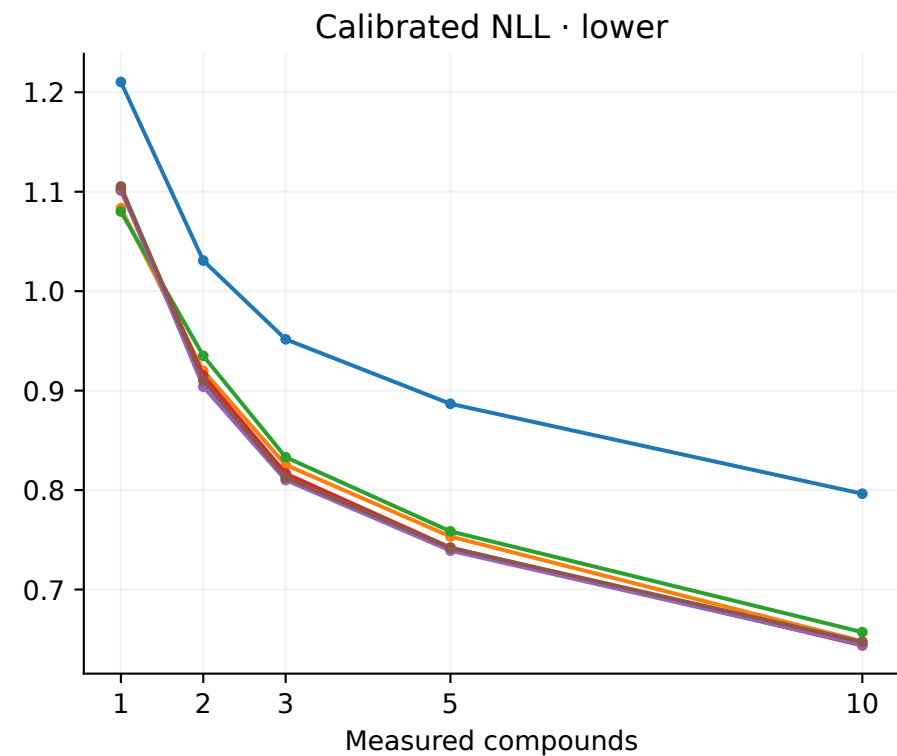

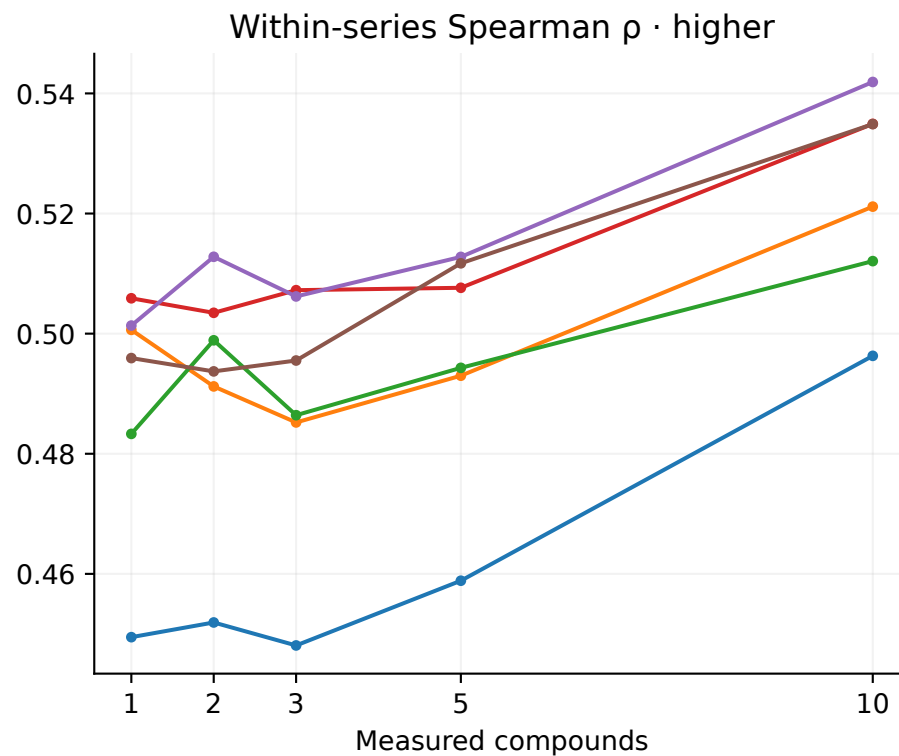

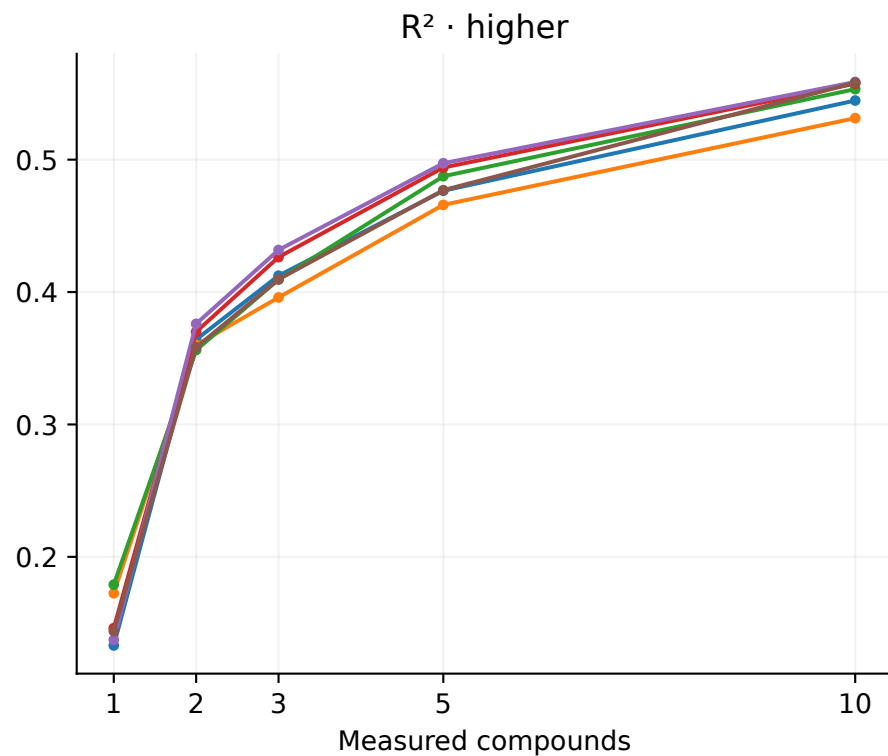

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | Permeability

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting

Archived mean, kernel and weighting ablations | Plasma protein binding

Neural mean + GP Average mean Average mean and kernel
Original neural model Average-reference kernel Kernel-softmax weighting
